

Practical Business Advice & Support

TRACEY STOCK Prof Corp A&D SERVICES

A practical business advisor to the energy industry, Tracey Stock PC A&D Services goes beyond traditional oil and gas services.

Providing transaction services that combine legal, land asset management, engineering, and information technology, Tracey Stock A&D Services gives practical business advice and support for the acquisition and divestiture of oil and gas assets, corporate mergers and reorganizations, and post-merger and post-acquisition integration.

It's unique to have a professional engineer lead a legal, land asset management, and systems team.* Tracey provides real industry experience with real awareness of practical business needs that maximize transaction value.
